SUMMARY

Product Designer working on B2B SaaS workflows, AI-assisted authoring, and design systems. Designs FastGovBid's journey from opportunity search to proposal preparation, working with engineers through implementation. Combines brand and visual design experience with five years of daily Figma use.

EXPERIENCE

Creative Designer (Product & UI/UX) - Go Creative Studios

Dec 2025 - Present | FastGovBid - B2B government contracting platform

- Designed interfaces across opportunity discovery, bid evaluation, pursuit tracking, proposal preparation, and document sharing for a government contracting platform.
- Redesigned proposal authoring around an outline, writing canvas, and contextual tools. Delivered the V3 design files and Tailwind exports; engineering merged the workspace implementation in May 2026.
- Specified guided and advanced search around one query, preserving criteria across modes and keeping additional filters visible when returning to guided search.
- Reworked partner discovery from a time-based feed into a contractor catalog with Browse and For You views, explicit data freshness, and separate personal and organization actions.
- Designed onboarding, permissions, loading, empty, and error states. Delivered onboarding screens and step-by-step Tailwind files for engineering.
- Built reusable visual patterns across light and dark themes. Used Figma and Paper for design work, with implementation guidance and collaboration through ClickUp and GitHub.

Senior Brand Designer - DotBrands | Sep 2023 - Dec 2025

- Developed brand identities and visual systems spanning typography, color, guidelines, and digital applications.
- Used Figma for digital design work, website assets, and client presentations, carrying visual direction from concept to delivery.

Graphic Designer - _mybrief | Apr 2021 - May 2022

- Created static and motion campaign assets for different audiences and formats.
- Contributed visual research, logo systems, and brand guidelines, using Figma alongside Adobe design tools.

TOOLS & HANDOFF

Figma (daily use, 5 years), Paper, Adobe Creative Suite, HTML/CSS, Tailwind exports, ClickUp, and GitHub collaboration.

EDUCATION

Graphic Design for Print and Web - Humber College, Toronto | 2020
